MESSAGE

It gives me great pleasure to interact with the Faculty, Staff and the Students of this institution through the Website. The new website conforms to all new regulations and would help in wider spread of information to all the people at large including the disabled. It would also ensure transparency in all the activities of the hospital.

Safdarjang Hospital has been primarily catering to the economically weaker section of the society and most services are rendered free of charge. As a result despite having 1531 beds our hospital is always over-crowded. The upcoming Emergency and Superspeciality blocks which are under construction would greatly enhance the quality of medical care and add to much needed beds to the hospital's existing bed strength.

I have been associated with this institution since several years. Therefore it gives me great satisfaction to see new state-of-the art facilities being introduced that would vastly improve patient care. It is also heartening to note the efforts put in by the teaching faculty, as a result, in a short span of seven years Vardhman Mahavir Medical College is now counted among the prestigious centres for Medical Education in the country.

I am sure that with the steps being taken by the Ministry of Health & Family Welfare and the efforts put in by the faculty, resident and staff the hospital would live up to our motto of "Service with a smile".

(Dr. A.K. Rai)
