

DEPARTMENT OF ANATOMY
Vardhman Mahavir Medical College and Safdarjung Hospital New Delhi 110029

I. GENERAL INFORMATION

Cadaveric dissection is an important element of the teaching schedule in medical college. It aids the medical students to understand human anatomy and consequently utilize this knowledge for their clinical subjects. The surgeons also require is to update their knowledge. The Department of Anatomy VMMC, wishes to create awareness among people about voluntary body donation for teaching and research purposes.

The interested person while alive may voluntarily donate his/her body and express his/her will in writing (form can be downloaded from website or available in the Anatomy Office, VMMC) and inform his next kith & kin about the same. The dead body should be preferably transported to the Department of Anatomy VMMC within working hours. If the body is brought in non-working hours, it may be temporarily kept in the Mortuary of the hospital which is open 24 hours on all days.

II. INSTRUCTIONS FOR THE PROSPECTIVE DONORS

The Vardhman Mahavir Medical College and Safdarjung Hospital, accepts donation of body after death for teaching and scientific advancement.

The WILL FORM and DONOR CARD duly completed in duplicate by the donor should be submitted to the office of the Head of the Department of Anatomy, VMMC and Safdarjung hospital, New Delhi for registration.

The body of the voluntary donor with death certificate, from competent medical personnel should be handed over by the next kin, to the Department of Anatomy. Body after accident, medico-legal case or any other form of unnatural death will not be accepted.

After the death of the donor, the information should be conveyed to the Vardhman Mahavir Medical College and Safdarjung Hospital. The telephone numbers are indicated below:
