

NABL is an accreditation body; NABL provides voluntary accreditation services to

- Testing and Calibration Laboratories
- Medical testing laboratories
- Proficiency Testing Providers (PTP)
- Reference material producers (RMP).

Medical testing laboratories presently are to be accredited in accordance with ISO 15189:2012

Benefits of Laboratory Accreditation

Formal recognition of competence of a laboratory by NABL has many advantages:

-Assurance of genuine reports

-Increased confidence in laboratory Reports issued by the laboratories which emphasise on accuracy and reliable results.

-Increased patient satisfaction

-Better control of laboratory operations and feedback to laboratories as to whether they have sound Quality Assurance System and are technically competent
